

Crit. D - Test and Evaluate a Solution - Grading Rubric

Students evaluate the solution against the design specifications to determine its success.

Score	Characteristics	Description - The Student:
7	Exceeding Inspiring Insightful Sophisticated Substantial Thorough Relevant	(i) - Precisely and accurately collects and analyzes all essential solution test data (ii) - Precisely evaluates the success of the solution against many of the design specifications (iii) - Explains in terms of the essential design specifications, how the solution could be improved for the target audience (iv) - Explains in detail the impact of the solution on the target audience from an empathetic perspective
6	Meeting - Exceeding Substantial Thorough Relevant Complete Concise Sufficient	(i) - Accurately collects and analyzes all essential solution test data (ii) - Evaluates the success of the solution against many of the design specifications (iii) - Explains in terms of the design specifications, how the solution could be improved for the target audience (iv) - Explains in detail the impact of the solution on the target audience
5	Meeting Thorough Relevant Complete Concise Sufficient Adequate	(i) - Collects and analyzes the solution test data correctly (ii) - Evaluates the success of the solution against some of the design specifications (iii) - Explains how the solution could be improved for the target audience (iv) - Explains the impact of the solution on the target audience
3 - 4	Approaching Nearly Adequate Nearly Sufficient Mostly Complete	(i) - Reports most of the solution test data (ii) - Partially evaluates the success of the solution against few of the design specifications (iii) - Outlines how the solution could be improved (iv) - Outlines the impact of the solution on the target audience
1 - 2	Below Limited Inadequate Minimal Mostly Incomplete	(i) - Reports some of the solution test data (ii) - Superficially evaluates the success of the solution against a minimal number of the design specifications (iii) - Partially outlines how the solution could be improved (iv) - Partially outlines the impact of the solution on the target audience
NA	Incomplete Not Started	(i) - did not complete the assignment at all, or did not complete enough of the assignment for the teacher to provide relevant academic feedback
