

Upcycling GRASPS

How should systems be sustainable to minimize negative human impact on the environment?

Goal

Your goal is to create a thoughtful handmade gift from used materials.

Role

You are a designer. Your specialty is making treasure from trash.

Audience

The target audience is a person at school.

Situation

Creating a lovely gift from used materials for someone special will brighten their day and help the environment.

Product

You will create a thoughtful, handmade gift from used materials (e.g., trash, recyclables) for a person at school.

Standards for Success

The upcycled gift shall be:

1. mainly made from harmless school trash or recyclables
2. interesting for the person who receives it
3. sturdy and safe to use
4. smaller than a shoebox
